

MAGIC CLASS

MAGIC 201

Do you want to learn MAGIC? Sign-up TODAY!

If you have taken MAGIC 101 and you want more, this class is for you! This class will pick up where 101 left off and continue to teach you basic moves. The moves in this class are more advanced moves than the ones you learned in 101 and they include:

CARDS: Learn more basic card moves. Learn how to allow a spectator to choose any card in a deck, lose the card in the deck and then you will find the spectator's freely chosen card!

COINS: Learn more advanced moves like the French Drop which will further your ability to move and vanish coins!

ROPE: Learn Professor's Nightmare - the most popular rope trick of all time!

Learn advanced moves like the Tenkai Vanish & the Spellbound Move.
YOU WILL LEARN ALL OF THIS AND MORE!

Just about everything you will learn in this class is used as a part of a bigger effect or illusion. By taking this class, you will definitely have the necessary knowledge to continue your journey to becoming an entertainer!

Also, keep in mind that while learning magic is certainly fun, you are also developing life skills that will benefit you forever. Learning and performing magic will not only build confidence and self-esteem, but will also help your ability to speak in front of a large audience. THAT'S MAGIC!

Remember - Good Magicians NEVER REVEAL THEIR SECRETS!

All students of Main Street Magic & Fun will be given the Magician's Oath.
